

MB-R900

MB[®]
THE CRUSHING EVOLUTION

MB-R900

Precise and powerful, the MB-R900 is the largest in the range and allows for the accurate processing of natural materials (rock and stone), and the levelling of plasterwork, wall coatings and concrete surfaces. The low levels of noise generated, and the limited levels of vibration, render this machine ideal for use in quite and residential centres.

AREAS OF APPLICATION

TUNNELS
PIPING
URBAN JOB SITES
ROAD WORKS
PROFILING OF ROCK AND CONCRETE WALLS
QUARRIES
MINES
DEMOLITION
EXCAVATION OF EARTH, ROCK, ASPHALT,
